## White Paper

# Overview

**DreamSport (\$DRST)** is a token that originated from three main ideas: charity, community, and benefit to holders

## Charity

DreamSport's goal is to provide funding and equipment to underprivileged youth. By donating to and partnering with childhood sports organizations, we hope to eliminate financial barriers that prevent children from getting involved in athletic activities.

## Community

We take pride in being a true crypto-democracy and being as transparent as possible with anyone involved in the project. This is why we always take the opinion of our investors very seriously. With that in mind, we are setting realistic goals for our token with the well-being of the community as our driving force.

## Benefit to Holders

DreamSport proudly features the **first ever NFTs of Malmo FF Center Back Anel Ahmedhodzic**. Our one-of-a-kind NFTs provide the token with the added value and security of a use case. Additionally, holders receive massive buybacks from our NFT sales.

# Core Values

**Adaptability:** The DRST community is committed to overcoming obstacles and recovering from adversities.

**Integrity:** We're committed to this coin for the long-haul and will operate DRST with the utmost professionalism - this is a scam-free environment

**Charity:** As our coin increases in popularity, one of our goals is to partner with charities, particularly those focused on providing sports equipment/experiences to underprivileged youth.

**Sustainability:** Through community engagement, NFT's and future products, we'll work to increase DRST's usability, thus, contributing to the long-term sustainability of this token.

**Community:** We pride ourselves on having a community-based token in which each holder's opinion is taken into consideration.

**Transparency:** Our team is fully doxxed and will always be available to address investors' concerns. We want all investors and potential investors to feel secure in the fact that they know who we are and what we're doing with this project.

# Learning From Our Mistakes

As this is a relaunch, it's clear the first attempt didn't go as intended. We weren't as familiar with the BSC space, we didn't plan enough marketing for the initial few weeks, and we didn't have any of our use cases ready to go.

With these mistakes came ample learning opportunities. This led to finding marketing partners, project partners and overall solid connections in the BSC space.

We're certain that we now have all the pieces ready to make a successful launch and lasting project.
